25X1

17 October 1962

**MEMORANDUM FOR:** Admiral Taylor  
Mr. Sheldon  
Mr. Godfrey

**SUBJECT** : Movement on

1. I talked on Wednesday, 16 October, with [ ] of DIA who advised that [ ] had been tasked with preparing the reply to the DCI's memorandum which I hand-carried to Secretary Clifford on Monday, 7 October. [ ] had not yet sent the reply since he wished in it to be able to report on things that had happened rather than things that were going to happen.

2. I did not get hold of [ ] himself, but [ ] sent me the attached three military cables dealing with the [ ] situation. As you will see, the intent is to resume the original orbit at least long enough to determine if that orbit provides significant additional intelligence. The LDX'd version of one cable was so illegible that we had to retype it in order to make comprehensible copies.

George A. Carver, Jr.
